SUMMARY

Aspiring full-stack developer skilled in MERN stack, cloud tools, and modern web technologies. Experienced in building AI-integrated applications, participating in hackathons, and delivering functional web apps under tight deadlines.

EDUCATION

B.Com (Computer Applications) : Field Marshal K.M. Cariappa College, Madikeri	2023 – 2026
PUC: ST Michael's Composite PU College, Madikeri --- 90%	2019 – 2020
Class 10 th : St. Michael's Higher Primary School, Madikeri --- 77%	2019 – 2020

TECHNICAL SKILLS

Programming	HTML, CSS, JavaScript, Gen AI , React, Node.js, Express.js, MongoDB, N8N AI Agents, AI Prompting Techniques, Analytical Thinking, Analytical Thinking, IBM Granite, IBM watsonx, Retrieval Augmented Generation (RAG)
soft skills	Cross-functional collaboration, Clear technical communication. Adaptability & fast learning, Ownership & accountability

PROJECTS

BUNK BRAIN

MERN Stack -Ai Agents -98%

It is a full-stack AI-powered educational SaaS platform designed to help students collaborate, study smarter, and stay productive. It integrates advanced technologies like React, Node.js, MongoDB, WebRTC, Socket.IO, and AI APIs to create an interactive learning environment.

SnapScholar

MERN Stack — OCR 83%

Learning platform that converts uploaded topic images into text using OCR and provides AI-generated answers, quizzes, and relevant YouTube explanations. Features include auto-generated quizzes, user progress tracking, Optimized for mobile and web.

Exam hub

MERN Stack —Multilingual 95%

Multilingual exam preparation platform featuring live classes, real-time chat, and an interactive scratchpad for collaborative learning. Built with React for competitive exam aspirants, supporting multi-language accessibility across all features. Developed as part of the Yuga yatra company's edtech initiative.

AI-Powered Google Sheets Automation using n8n:

- Built an intelligent automation workflow using n8n that connects with Google Sheets to perform CRUD (Create, Read, Update, Delete) operations through natural language prompts.
- Designed AI-driven workflows capable of fetching, adding, updating, deleting, and executing row-based operations automatically without manual spreadsheet editing.
- Integrated AI agents with Google Workspace services to automate repetitive data management tasks and improve workflow efficiency.

EXPERIENCE

Unified Mentor (online) Intern

6 Months

- Developed full-stack applications using MERN stack (MongoDB, Express.js, React, Node.js).
- Implemented REST APIs and JWT-based authentication for secure user access.

Yuga Yatra(online/offline) Intern

6 Months

- Created full-stack web projects with dynamic dashboards using MERN stack.
- Worked as a team lead for Link cab and Risthawalla
- Received a PPO for the hard work for 6 months

Shree Venkataramana Cr-Co Society Madikeri :(offline) Intern

1 Months

- Updated a website connecting with a new database
- Worked with a team and collected the data
- Worked on with the excel sheet

ACHIEVEMENTS

- Participated in 2 national-level hackathons with diverse problem statements.
- Worked as A google student ambassador
- Received certificates, prizes, and honorable gifts.
